Representation

Relates to:

6.4 Green infrastructure

Comments:

As NULBC are proposing to develop vast swathes of our green belt land in Audley Parish, I feel very strongly that any Biodiversity Net Gain or Section 106 benefits should remain within Audley Parish. I would like to see any BNG benefit be allocated to the actual development site or adjacent to the site, however, if this is not possible then the benefit should be retained within Audley Parish. Similarly any Section 106 benefits from any new development in Audley Parish should also be allocated to Audley Parish

Any additional information:
