

## **Newcastle-under-Lyme and Stoke-on-Trent Core Spatial Strategy**

### **CHD25**

CHD25 - Response to RHD13

The Councils have nothing further to add in relation to the first three bullet points (Area Spatial Policies, Core Strategic Policies: Design Quality and Natural Assets) of RHD13.

However, the Councils wish, in the interests of clarity, to make all changes proposed to the monitoring framework suggested in the final bullet point of RHD13.

Please note the Councils still wish to retain the monitoring target for completion of conservation area appraisals and management plans (i.e. the first bullet point of Reference number 58, page 81 of CHD9a).
